### • POTTED TREES

Varying sizes of Native Illinois potted trees, sold in the Fall from September 1 to mid-October.

### • POTTED PRAIRIE PLANTS

1 gallon containers of Native Illinois prairie plants, sold in the Fall from September 1 to mid-October.

## *Mason State Tree Nursery is Illinois' only state owned and operated tree nursery.*

The Mason Nursery was established in the 1930's to supply tree seedlings to what was to become Sand Ridge State Forest. Seedlings from the Mason State Nursery were planted on what is now Sand Ridge State Forest by workers from the Civilian Conservation Corps camps.

Through the decades, the nursery has evolved and expanded beyond growing just trees to now include native shrubs, native grasses and wildflowers and seed mixes. Today, the Nursery's stock is for sale to the public for conservation efforts throughout our state.

Everything produced at Mason Nursery is native Illinois ecotype with extra care being taken to eliminate noxious weed seed from our seed mixes. Our seed is hand picked, hand cleaned, and hand packaged by our staff. In an effort to protect pollinators, Mason State Tree Nursery is proud to be a Neonicotinoid-free Nursery.
