Ms. Michelle Simone
Illinois Department of Natural Resources
Office of Resource Conservation
Division of Natural Heritage
215 North 5th , Suite D
Pekin, IL 61554

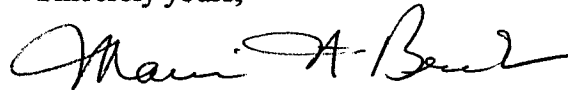

Dear Michelle,

I am enclosing 6 copies of List of Plants Collected., the final report for the Marshall County, Illinois Plant Occurrences, Wildlife Preservation Fund Grant # 01-014W. The List of Plants Collected . . details the plant specimens collected in Marshall County for the grant. The selected plants which were collected were neither included the Illinois Plant Information Network (ILPIN) for Marshall County nor were found in the INHS Herbarium website for Marshall County. The plant specimens were logged, collected, pressed, identified and were transferred to Dr. Loy Phillipi, the Curator of the INHS Herbarium for verification and long term documentation of plant occurrences in Marshall County.. We greatly appreciate Dr. Phillipi help in this project.

I am also enclosing the payment request certification. There are copies of two bills for supplies attached. A mileage log details the field trips taken to collect the plant specimens at the proper time. Since the mileage incurred of 2525 miles at \$.325 is \$820.62 which exceeds the grant budget amount, I am requesting the budgeted mileage of \$584. The total amount requested for supplies and mileage is \$735. Also enclosed is a copy of the announcement of the grant in the local newspaper.

Thank you for the grant to enable this project and for your assistance with this project.

Sincerely yours,

Maury Brucker
