**FINAL REPORT: Grant Agreement #13-R01W
New Roof for Wildlife Hospital
Agreement of August 20, 2012 to December 31, 2013**

Submitted by: Jane Seitz, Executive Director
November 22, 2012

Project Objective:

The roof of the IRC wildlife hospital is old and leaking. An old unused chimney and decorative cupola are the source of many of the leaks with is ruining the floor of the attic and staining the ceilings below. The objective of our project is to remove the old asphalt shingles along with a chimney and cupola and replace it with new longer lasting steel roofing.

Completed Project Description:

Michael Phillips of Michael Phillips Construction has volunteered his services to the IRC on many occasions to replace plumbing fixtures, woodwork and to skim coat damaged walls. Mr. Phillips, as a volunteer, prepared a list of materials for our roofing project and went to three different lumber yards for prices with R. P. Lumber having the lowest materials cost at only \$1,469.38. That was much less that the \$2372.00 we had estimated. Mr. Phillips picked up most of the materials and delivered them to the work site at no cost to the IRC.

Mr. Phillips volunteered his time as contractor/worker for the roofing project with the IRC paying Phillips Construction \$1600.00 in labor costs for his work crew. It took the crew the better part of 3 work days to finish the project. The labor cost was roughly half of the \$3,040.00 that the IRC had estimated it would be. There was an extra \$11.49 on that invoice for additional material that was needed. Total cost of the roofing project is \$3,080.87.

The roof has now been completed and the IRC is very, very pleased with it. We have checked after every recent rain and have found no leaks or problems with the roof. Window shutters matching the steel roof were installed yesterday and the hospital looks great!

Total reimbursement requested = \$2,000.00

Receipts, grant announcements and payment request certificate is attached.

IRC's original asphalt shingled roof.

Wildlife Fund Advisory Committee Awards Grant To Illinois Raptor Center

The Wildlife Fund Advisory Committee has awarded a \$2,000 Wildlife Preservation Grant to the Illinois Raptor Center to replace the roof on their wildlife hospital.

The grant is financed through a voluntary check-off designation on state income tax return forms. All donations to the fund are used to assist non-game wildlife and native plants in Illinois. Each individual taxpayer required to file a state income tax return may contribute to the Illinois Wildlife Preservation Fund on their return under the section titled "donations".

The grant received by the IRC insures that a portion of the yearly donations assist in the maintenance of wildlife rehabilitation facilities that care for threatened or endangered species. The IRC cares for endangered species that have included barn owls, short-eared owls, Peregrine Falcons and Bald Eagles just over the past few months.

The IRC is the only raptor rehabilitation organization in Central Illinois.

Work on the roof is in progress. An unused chimney and a cupola that have caused most of the roof leaks have been removed. The timeworn shingled roof is being replaced with steel roofing. This new roof is the beginning point for renovations to the hospital.

Next, all the rooms in the hospital will be repainted and hospital equipment will be relocated throughout the building.

IRC moved its office from the hospital building in May when it purchased an adjacent 10 acres and 1700 sq. ft. building that has become offices, meeting rooms and nature center. This provides three times more space for the hospital to operate.

To assist the IRC with the remainder of the funds needed to pay for the roof or to help with the wildlife hospital's operating costs, mail donations to Illinois Raptor Center, 5695 W. Hill Road, Decatur, IL 62522 or visit them online at www.illinoisraptorcenter.org to donate through Paypal.

Promotion

Promotion of the grant was also printed in our latest Illinois Raptor Center Wingover Newsletter that goes out to over 1,000 addresses.
