TOTAL NEW ACRES \_\_\_\_\_

NOTICE: This state agency is requesting disclosure of information that is necessary to accomplish the statutory purpose as outlined under 225 ILCS 715/1 (Ill. Rev. Stat., Ch. 96 1/2, par. 4501 et seq). Disclosure of this information is voluntary; however, failure to comply may result in this form not being processed. This form has been approved by the Forms Management Center.

**MLCR 4**

Every application and amendment shall contain the following. This information will be important and used in determining the applicability of the reclamation plan. A separate bond and permit will be required for each geographically distinct mining site. A U.S. Geological Survey Topographic Map outlining the acreage to be affected and the lands surrounding the acreage shall be included. Add additional sheets when enough space is not available. The following questions must be answered.

**Does the applicant have the right and power by legal estate owned to conduct the proposed surface mining activity and to reclaim the land so described?** Yes No

1. Ownerships and addresses of the proposed permit area (use a map when appropriate). If more than one (1) landowner indicate property lines on map.

---

---

---

2. The name, address, contact person and phone number of any municipality with legal jurisdiction over the proposed permit area through an annexation or pre-annexation agreement.

---

---

---

3. The mineral(s) from which the refuse is cleaned. \_\_\_\_\_

---

---

4. The character and the composition of the vegetation and wildlife on lands to be affected.

---

---

---

5. Summarize the current land uses in the proposed permit area. Describe any changes that have occurred in the past five (5) years.

---

---

---

6. The current assessed valuation of the lands to be affected and the assessed valuation shown by the two (2) quadrennial assessments next preceding the currently effective assessment.

Property Tax I.D. No.	Legal Description	Current Assessed Valuation Per Acre	Two (2) Preceding Quadrennial Assessments	
			1st	2nd

7. Identify the location of existing roads and anticipated access and haulage roads planned to be used or constructed in conducting refuse deposition. Please indicate on map.

---

---

---

8. Describe all water control structures or earthen fill operations for the control or containment of water and or slurry. A representative cross section is provided in Exhibit\_\_\_\_\_:

---

---

---

9. Identify the location and names of all streams, creeks, bodies of water and underground water resources within the lands to be affected. Indicate on the map.

---

---

---

10. Describe the drainage on and away from the lands to be affected including directional flow of water, natural and artificial drainways and waterways and streams or tributaries receiving the discharge. Indicate on the map.

---

---

---

11. Identify the location of buildings and utility lines within the land to be affected. Indicate on the map.

---

---

---

12. Provide the results of core drillings (to be provided only upon request of the Department).

---

---

---

Surface Mining Refuse Disposal Permit No. \_\_\_\_\_

OR

Amendment # \_\_\_\_\_ to Refuse Disposal Permit No. \_\_\_\_\_

Name of Mine	Address	Pit No. or Name	Acres to be Permitted	Location			
				Sec.	Twp.	Range	County

14. A. A conservation and reclamation plan for each refuse area to be affected including a map of the area with the different reclamation methods and all other pertinent information. The reclamation plan and map shall identify at a minimum (use extra pages when necessary):

Locate the areas where overburden is removed from to create an impounding structure or to use as cover material. Describe how this area is to be reclaimed. If overburden is to be removed from adjacent permits include a narrative description.

---

---

- B. The post mining lands uses include:

Land Use	Acreage

- C. The vegetative species to be planted for each land use are:

---

---

This copy if approved will be returned with the permit and shall be filed with the County Clerk. Receipt of filing is required (Form MLCR 1b) and shall be forwarded to the Department of Natural Resources, Office of Mines and Minerals, Explosives and Aggregate Division.
