

of fish are present in the lake, but most anglers seek bass, white crappie and channel catfish. The lake is deeper than most Illinois lakes, averaging nearly 19 feet with a maximum depth of 59 feet. Coffeen Lake has nearly 50 miles of shoreline. Power plant operation noticeably influences fish activity and fishing success. Fish growth appears to be faster than in many other lakes, however.

Facilities

■ **Boating**—A two-lane ramp and two single-lane ramps provide access for launching. The Main Access (lower pool) provides a two lane ramp and a newly constructed parking lot with an accessible loading platform and reserved parking stalls. The North Access (upper pool) provides a single lane ramp, an accessible courtesy dock and a parking lot. Motors of 25 horsepower or less are allowed to operate on the lake. (Boats with larger motors are allowed, but are restricted to trolling motor operation only.) Motors larger than 25 horsepower can be used for loading and unloading a trailered watercraft, provided the watercraft is operated at a no-wake speed within 150 feet of the loading ramp.

Motors of 25 horsepower or less are allowed. Sail boating, swimming and water skiing are prohibited. Boat and water safety is urged.

■ **Fishing**—Bank fishing is available at all boat access areas. Considerable acreage is open for bank fishing where parking is present. Posted site specific regulations for bass and crappie are enforced. All fishing tournaments must be scheduled through the site office.

■ **Picnicking, camping concessions**—Toilets, drinking water and picnic facilities are available at the main access area. A private campground is located just to the north of the main access area. Bait, supplies and food can be obtained there.

■ **Hunting**—Deer hunting is allowed in season. Check site specific regulations at site office.

■ **Trapping**—A controlled aquatic furbearer trapping program allows the harvest of a valued renewable resource.

Please: Do your part in maintaining a clean area. Place all litter in the nearest trash container. If you need help or have a question, contact site personnel.

The Lake

History

Central Illinois Public Service Company (owner prior to Ameren Energy) built a 75-foot high earthen dam on a branch of the East Fork of Shoal Creek in 1963. The lake was completely filled by 1966 and now serves as cooling water for the coal-fired Coffeen power station. The power station has a generating capacity of 945 megawatts of electricity, with the first unit in 1972. The heated discharge

The Area

The Illinois Department of Natural Resources well-comes you to Coffeen Lake, a 1,100-acre cooling lake in Montgomery County near Coffeen, Illinois. Coffeen Lake is an attractive site with a history of providing anglers and hunters great success. The site was opened in 1986 and operates under a long-term lease and management agreement between the Illinois Department of Natural Resources and Ameren Energy Generating Company. This agreement grants authority to the State to open the lake and certain lands to the public for recreational activities, such as fishing, boating, picnicking and hunting.
